

## Brain Storming Webinar

### “Possible Multidisciplinary courses on Himalayan studies for Indian Himalayan Central Universities Consortium/NEP 2020”

#### Concept Note:

The Himalayan University Consortium provides us a means to bring our best minds to bear on mountains, generate mountain knowledge and put it to use for a shared common goal of sustainable futures. HUC aims to provide opportunity to inspire, enable, and empower youth to address their future. The IHCUC was established by NITI ayog with an objective for development of affordable and environmentally friendly tourism in hilly areas; creation of employment opportunities for migration control from mountainous regions. The consortium should undertake research in Hill Agriculture, Horticulture, Herb Production, Floriculture, Organic Agriculture, Eco-tourism, and Technology. This would produce the sources of livelihood in Himalaya.

New Education Policy also aims to develop multidisciplinary and Multiple Entry Multiple Exit skill and vocational courses to enable the youths to get employment and gain knowledge beyond any stream limitation.

The basic aim of this webinar is to select some common courses to be undertaken for study based on the Himalayan culture, environment and economy.
